

ICCS SMART Security Solution makes payment card security easy and affordable

Secure and PCI Compliant: Helps meet strict payment card guidelines; limits scope of compliance and exposure.

Business Continuity: Integrated 3G/4G wireless backup prevents service interruption; reduces opportunity for criminal behavior.

100% Managed Service: 24x7x365 proactive monitoring from ICCS ensures highest possible uptime.

Integrated Solution: All necessary hardware and software provided as a service – no more integration headaches.

Lower Cost: No expensive hardware fees that saves you money every month by eliminating VSAT or fixed-line costs!

Plug and Play: Installs in minutes by store personnel.

Faster: Accelerate your transaction processing by using your broadband.

Optional Features:

- Dial and Wireless Backup
- Hosted PBX / Wi-Fi Hotspot
- Broadband Services

CHALLENGE:

Finding the right solution to improve application performance, meet PCI compliance and network security

SOLUTION:

ICCS SMART Security Solution delivers superior network security protection at a fraction of the price of competitive technologies

RESULTS:

- PCI compliant
- Improved application performance (higher bandwidth/improved latency)
- Integrated wireless backup
- Fully managed solution
- Lower cost of ownership
