

ICCS Consolidated CPE Solution makes I.T. operations better, faster and more affordable

Eliminate POTs lines: Eliminate analog POT's lines with our integrated 3G/4G wireless backup; prevents service interruption.

Secure and PCI Compliant: Helps meet strict payment card guidelines; limits scope of compliance and exposure.

100% Managed Service: 24x7x365 proactive monitoring from ICCS ensures highest possible uptime.

Integrated Solution: All necessary hardware and software provided as a service – no more integration headaches.

Reduced Costs: No expensive hardware fees that saves you money every month by eliminating analog lines, VSAT or fixed-line costs!

Plug and Play: Installs in minutes by store personnel.

Faster: Accelerate your transaction processing by using your broadband.

Optional Features:

- Dial and Wireless Backup
- Hosted PBX / Wi-Fi Hotspot
- Broadband Services

CHALLENGE:

Finding the right CPE solution to eliminate analog POTs lines with wireless backup, meet PCI security compliance and provide hosted PBX voice services.

SOLUTION:

ICCS Consolidated CPE Solution delivers the perfect solution with superior network security at a fraction of the price of competitive technologies

RESULTS:

- Integrated wireless backup
- PCI compliant
- Hosted PBX voice services
- Fully managed solution
- Lower cost of ownership
